Success Revolutions |The Hidden Power of Patterns in Cross Cultural Collaboration

Natalie Forest has been a speaker on ABC, FOX, CBS, NBC and a frequent writer, contributor on many published articles in Today's Innovative Woman Magazine. Her ground breaking, interactive presentation explores the hidden patterns in cross culture collaboration. She will engage our group in conversation on patterns that define how many people understand communication, collaboration and leadership; patterns that have the power to destroy teams and the potential to be a positive influence to create a common understanding of tasks, priorities and success – one culture that works.

Natalie's presentation challenges existing beliefs of competition as the only way while sharing insights and skills for our members that lead the way for optimal growth and acceleration.
